As this DX project gathers more individual support, DX-World is happy to become the official media channel for **3G0XQ**.

Today we received news about planned 50MHz activity. Felipe says:

Good news indeed for 6m fans.

V73WW Marshal Islands DXpedition

In February 2025, a team of six young and ambitious operators activated V73WW from the Marshall Islands (IOTA OC-029, Grid RJ57). Now, we are delighted to share our full activity report with the global amateur radio community.

Spending 14 days on the island, the V73WW team logged an impressive 103,864 QSOs across CW, SSB, RTTY, and FT8. At the time of the operation, the Marshall Islands ranked #96 on Club Log's DXCC Most Wanted List (as of July 2025), making this activation both rare and in high demand. <https://www.dx-world.net/v73ww-marshall-islands-2025/>

TX5U Tikehau Atoll -now QRT by Didier F6BCW

'TX5U is finished with 8000 CW QSOs. I warmly thank all the radio amateurs who tried to contact me. I thank you all for your patience, your operating discipline while respecting others. I will be in the Tuamotu again for a long stay of several months in 2026, so everyone who has not been able to contact me will have a chance to do so. Thanks also to my loyal sponsors and ham radio friends who helped me. See you soon for new adventures.'

It will be a 3-4 month long DXpedition to ZD9 which could be extended by another 2-3 months bringing it to (potentially) 6+ months. The additional months could depend on PayPal donations / extra donors. Focus is going to be on CW & SSB. There will be VERY LIMITED usage of FT8. Infact, FT8 will ONLY be used on 80 & 160 meters. Bands of operation will be 10 meters to 160 meters. 1kW to monoband heavy duty vertical antennas due to Tristan da Cunha's very inhospitable weather.
